

Nokia Outs Fourth Android Handset

Written by Marco Attard
27. June 2014

Microsoft launches a fourth Android smartphone-- the Nokia X2, a followup to [the Nokia X lineup](#) featuring a 4.3-inch ClearBlack display covered with a translucent outer layer.

Inside the device are a dual-core 1.2GHz Snapdragon 200 CPU, 1GB RAM, 4GB storage (expandable to up to 32GB via microSD), 5MP rear-facing camera and a removable 1800mAh battery.

Being aimed for emerging markets the X2 also features dual-SIM capability, as well as a variety of Microsoft apps such as Skype, Outlook.com and OneDrive.

The Nokia X2 is available now in a number of select countries (with the rest of the world to follow on July) in green, orange and black.
