

ViewSonic Europe announces a "Try for Free" campaign for potential ViewPad 7 customers, to run throughout April 2011.

Consumers will be able to try the tablet for 30 days free of charge. If not satisfied within that period, customers can send the device back to a full refund, with the company paying for return postage and package.

The ViewPad 7 is an Android 2.2 tablet, with wifi, Bluetooth and 3G support and 2x front/rear facing cameras. It has a 7" touchscreen, stereo speakers, thin profile and lightweight construction, making it ideal for users wanting entertainment on the go.
