Urban Armor Gear (UAG) launches Metropolis Series Cases designed for the 10.5- and 12.9-inch iPad Pro, complete with an impact-resistant soft core and a tactile non-slip exterior grip.

The cases meet MIL-STD 810 US military specification standards for 360-degree protection from drops and shocks. A smart cover protects the display and acts as a multi-position stand, while corner bumpers provide extra drop protection. Also included is onboard storage for an Apple Pencil.

The cover is removable to allow one to use the iPad Pro with the Smart Keyboard. Oversized ports and cutouts provide room for the attachment of 3rd party cables and accessories.

The Metropolis Series Case is available now in black, red and cobalt colours.
